

Weekly MCRUD Resources

Week of May 29, 2017

- **SAMHSA: New Grant Opportunity**
 - SAMHSA is seeking applications for up to \$7.8 million in FY 2017 grants under the Building Communities of Recovery program. This program aims to help build recovery systems for people with substance use disorders in communities throughout the nation. The grants will help mobilize resources for the recovery community to help increase the prevalence and quality of long-term recovery support from substance use disorders and addiction. Visit the [link](#) to learn more.
- **The National Institute on Alcohol Abuse and Alcoholism (NIAAA)**
 - The NIAAA recently released their new [Strategic Plan](#). The Strategic Plan serves as a roadmap for optimizing the allocation of NIAAA's resources to areas of alcohol research most likely to benefit from additional support, translating scientific discoveries for the benefit of the public, and continuing to build NIAAA's position as the key source of evidence-based information on alcohol and health/harm.
- **Healthy Alcohol Marketplace May Newsletter**
 - Last month's newsletter addressed the safety of alcohol products. For example, countries like the Czech Republic and England have had health hazards in bottles of alcohol, sometimes leading to deaths of consumers, and hurting the legal businesses as well as the illegal ones. The newsletter discusses alcohol quality regulations (testing, distribution standards, tracking, and consumer complaint forums), and how these regulations come up against small wineries, breweries, and distilleries. Read the full newsletter [here](#).
- **Office of Juvenile Justice and Delinquency Prevention Webinars**
 - An upcoming webinar may be of interest to coalitions that are working with youth, or seeking to have more youth leadership in their prevention work. The webinar is called "Learn How to Shine in Front of an Audience! Prepare a Top-Notch Presentation with Some Simple Tips From Experts," and features tips and tools for public speaking. Learn more at this [link](#).
